Performance Network™

**6σ & ISO 9001:2000  
INTEGRATION**

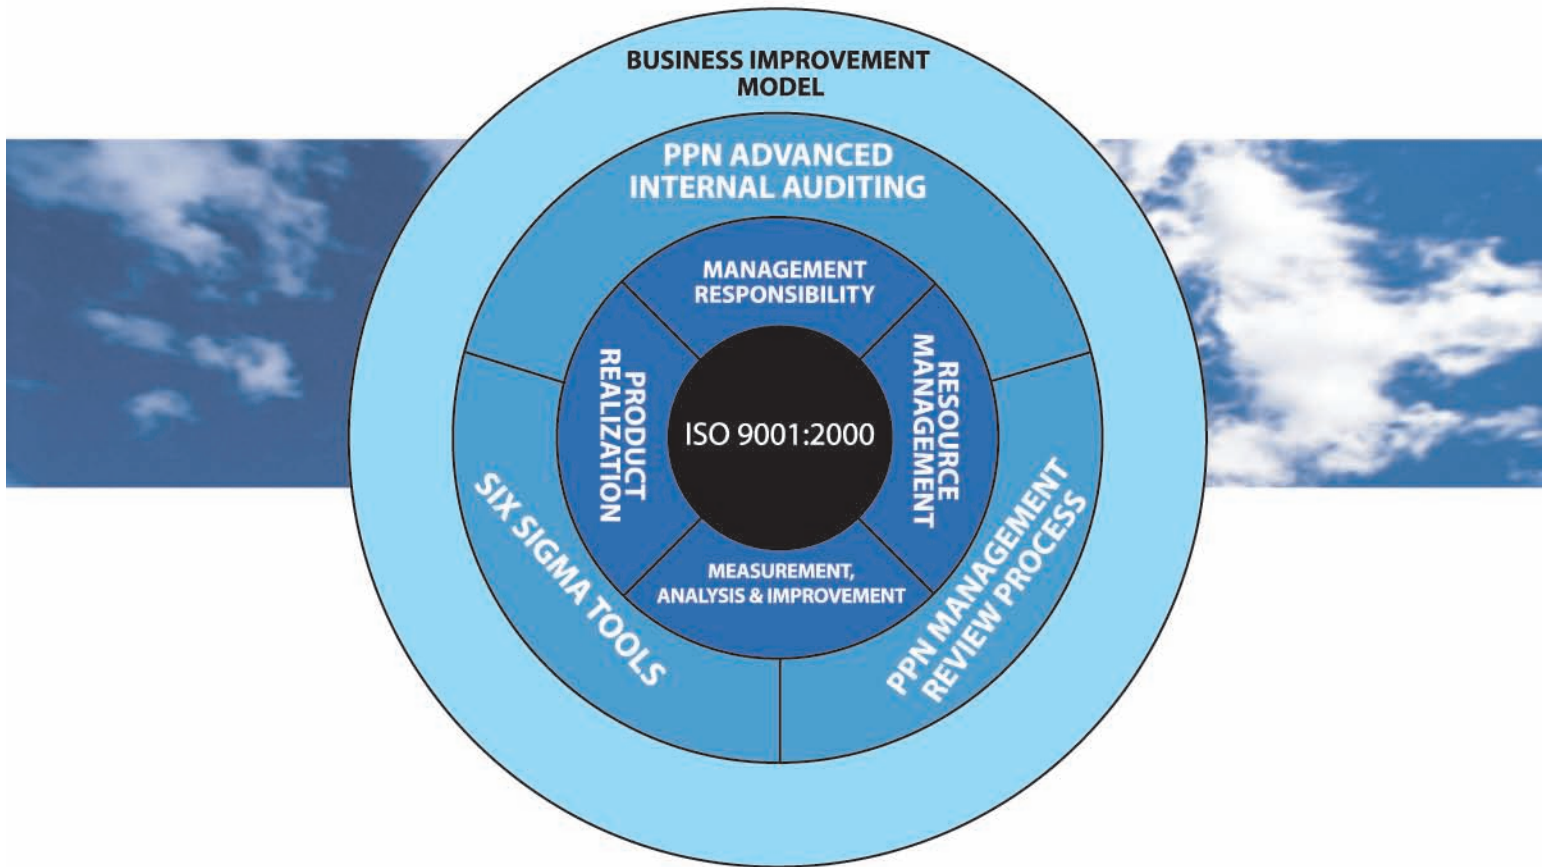

Your Complete Customized Solution

**THE POWER OF SIX SIGMA  
+ THE FOUNDATION OF ISO 9001:2000**

**= BREAKTHROUGH RESULTS**

[www.premierperformance.net](http://www.premierperformance.net)

Listening to the needs of tomorrow, Premier Performance Network (PPN) has established a value-added solution for integrating the power of six sigma with the foundation of ISO 9001:2000 to achieve breakthrough business performance and bottom line results.

In today's fast pace and uncertain business climate there are no shortages of complex business risks testing your teams' ability to respond effectively.

One of these risks is sustaining and standardizing the process improvements across the organization while minimizing unnecessary bureaucracy and duplication of efforts.

At PPN, our consultants and training programs are focused on providing process management solutions responding to these complex risks.

Our advanced Internal Auditing Process will take your organization from compliance auditing to an understanding of how to evaluate process effectiveness and create value for the organization.

The PPN Management Review Process provides the tools and steps necessary for the transition of ISO 9001:2000 into the strategic planning process.

We can provide a customized half or full day training module on the development of your Business Improvement Model that ties the pieces together to ensure lasting improvements and standardization across your organization.

### Why PPN?

The PPN Integration Process is the easiest and most cost effective solution for the successful integration of the Six Sigma tools with ISO 9001:2000.

- PPN is an ASQ recognized leader for Six Sigma training
- PPN consultants have hands on experience and in-depth understanding of ISO 9001:2000 and Six Sigma Integration.
